

The Tourangeau-Casey Family: A Narrative

This narrative is a seed. It is rewritten from research-dossier.md as findings accumulate; the on-site version and the PDF are both generated from this same file. Draft started 2026-07-11.

This is where the written story of the family will take shape — the Tourangeau line of **Ronald Tourangeau** and the Casey line of **Bernadette Casey**, traced back generation by generation from primary records.

Beginning

The research begins with Ronald and Bernadette and works backward. As each generation is confirmed against a primary source — a parish register, a census page, a civil record — its story is written here, and the confirmed facts flow into the interactive tree.

Until then, this section stands as a placeholder so the build has a narrative to render.
